**Zenon Nowacki** is a painter, graphic designer and medical illustrator. Born in Poland in 1949, received his master's degree at the Academy of Fine Arts in Warsaw in 1974. He has been living in Canada since 1982.

Zenon has been the creative force behind many successful advertising campaigns and is an author of over thousand medical illustrations.

Fine Arts, however are his true passion. In search for the means of expression, he explored abstract, Op Art, 3-D paintings and the paintings of Old Masters from XIV to XIX century. This experience formatted his mind.

While the primary source of inspiration he finds in Canadian landscape, people and still objects, the driving force behind his works is the search for essence of life and the desire to capture it on canvas.
